

.barcelona Launch Plan Overview

Launch Phase: Minimum length 60 days

Applications for these 5 categories will be accepted and allocated at the end of the launch period according to the hierarchy of each category priority status

1. Local Nexus: Community membership and Use of the domain according to the goals of the .barcelona TLD

Nexus

To register a .barcelona domain name at any stage (i.e. in launch phase or general registration) a nexus with the .barcelona community is required. This nexus means that you must be linked to the community at the time of registration and thereafter on a linguistic, cultural, tourism, commercial basis, or any other activity conducive to the welfare of the .barcelona community.

Use according to the goals of the .barcelona TLD
In addition, the use of the .barcelona domain name applied for must be:

- i. generally accepted as legitimate; and
- ii. conducive to welfare of the Barcelona community; and
- iii. commensurate to role and importance of domain; and
- iv. abide by the Catalan law regarding consumer protection, product and services labelling, advertising and fair communication; and
- v. compliant with current linguistic protection laws; and
- vi. based on good faith at registration and thereafter.

The strength of the validation is kept in line with the importance of the underlying domain name base on the assumption that an average user would reasonably make in the context of that domain name.

2. Launch Phase
